Robyn – in follow up to our call last week, attached are the letters we discussed. I believe you were going to share with others as appropriate. The press release regarding planned focused sampling of the one home is currently scheduled for tomorrow. That press release will also speak to the recent agreement between our offices on technical support from the KC and STL ACE offices.

I will send you a separate email about possible times for a technical call the week of November 28.

Thank you,

Lynn M. Juett
